

SKIN ACTIVE

UPLIFTING. ONE SERUM. TRIPLE SOLUTIONS.

Our Tri-Therapy Lifting Serum is Aminofil,[®] amplified.

A proprietary Triple Antiaging Complex helps to volumize and sculpt skin, filling the look of deep wrinkles and improving the appearance of skin laxity. The result is a lifting effect that is unsurpassed.

Volumizes Slacked Skin with Aminofil 1.25%

(HIGHEST STABILIZED IN A SERUM)

This patented amino acid derivative is concentrated to help reinforce the skin's matrix and target Hyaluronic Acid to volumize, plump and firm skin for a more lifted appearance.

Renews Tone with Gluconolactone 8%

A Polyhydroxy Acid and chelator that helps to reduce oxidative damage and gently enhances exfoliation for more even skin tone.

Smooths Skin with LMW Hyaluronic Acid 0.5%

Due to its unique small size, LMW (Low Molecular Weight) Hyaluronic Acid penetrates the skin's surface to attract moisture, providing hydration to visibly improve skin texture.

A regimen for better skin

Tri-Therapy Lifting Serum is most effective as a part of this comprehensive skin care regimen.

Prepare: Exfoliating Wash
Repair: Tri-Therapy Lifting Serum
Protect: Matrix Support SPF30

Prepare: Exfoliating Wash
Repair: Tri-Therapy Lifting Serum
Protect: Cellular Restoration or Dermal Replenishment

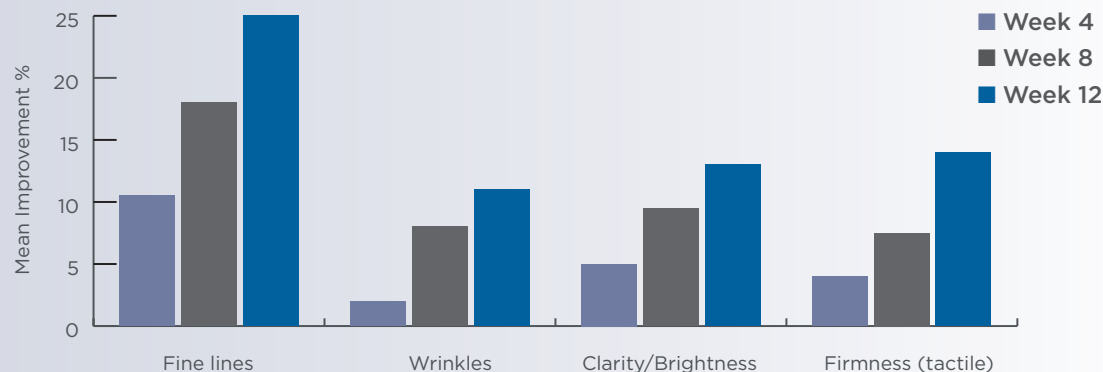

- pH of formulation targets 3.8 for optimal bioavailability
- Lightly moisturizing vehicle (Glycerin 5%)
- Alcohol-free, Oil-free and Paraben-free
- Periwinkle color with a 'non-fragranced' light citrus floral scent

NEOSTRATA[®]

SKIN ACTIVE

Beauty is in the eye of the expert clinical grader

Improvement Over Time as Evaluated by Expert Clinical Grading

All graded parameters were significantly improved from baseline at weeks 8 and 12 ($p < 0.05$)

At 12 weeks

79% improvement in wrinkles*

90% skin brightness and improved clarity*

97% reduced appearance of fine lines*

*% of subjects with clinical improvement at week 12. Data on file, NeoStrata Co., Inc.

Study Protocol

- 38 female volunteers (Fitzpatrick II-IV, 40-60 years, presence of moderate global facial lines and wrinkles and/or moderate global facial mottled hyperpigmentation (4-6 on a modified Griffiths' scale {0 =none to 9 =severe}).
- Used NeoStrata Skin Active Tri-Therapy Lifting Serum twice daily followed by a bland SPF moisturizer for 12 weeks (visits at weeks 0, 4, 8 and 12).
- An expert clinical grader visually assessed multiple aging parameters at each visit using a modified Griffiths' scale {0 =none to 9 =severe}.
- Pinch recoil and tolerability grading for dryness/scaling, erythema, burning, stinging, itching, and tightness (0-3 scale) were performed at each visit.
- Digital photography and subject self-assessment were performed over 12 week study.
